Dr. Hunter's Letters.

We have received from the author, Dr. James Hunter, an interesting little pamphlet comprising an introduction and five letters on Catarrh, Sore Throat, Bronchitis, and their auxilitry treatment by INHALATION. Several of Dr. Hunter's communications have already appeared in the Memphis journals, where he has established an office, and the interest they have awakened, has induced him to publish them in a less transitory form for more careful perusal and preservation. Dr. Hunter has hern long and favorably known throughout the United States, both as a physician and pop. plar medical writer, and his reputation for skill and success in the treatment of diseases of the Throat, Lungs and Heart is unsurpas sed by that of any other medical man. The alarming prevalence and fatality of Consumpnon is well known to all, and whatever promises to prevent or remedy this scourge deserves our careful consideration, particularly when coming from a man of Dr. Hunter's acknowloc30d&w1m

We are glad to be able to endorse Dr. Samnel Gilbert's Tetter Ointment. The afflicted will find it to be all it is represented, and it will cure all Cutaneous diseases. See adver-
